What makes Care 24/7 Healthcare Unique?

Owned and managed by people who have years of experience within the healthcare sector, Care 24/7 Healthcare knows what it takes to match staff with clients' needs. Using our insights into what's required for each situation, we provide a service with professionals trained for each scenario.

With access to a broad network of available staff, we can find the right person for the assignment. Care 24/7 Healthcare can also ensure you gain access to the reliability, flexibility and experience that you need to support you. We know how critical these are to you.

Our recruitment process is very discerning. We only take on staff who have appropriate and verifiable references. It's important to us that we provide professional and competent staff which clients can have confidence in with regards to screening, assessment and training.

Although our quality of service and professionalism is of utmost importance to us, it's also vital that we provide affordable solutions. By offering attractive packages to both employees and clients, we keep a balance that does not affect the quality of staff nor your ability to use our services. Our initial trial period delivers the most attractive rates that beat most agencies.

Our Recruitment Standards

What we've always done better than anybody is to provide the highest quality care staff. Applying internal Quality Assurance Systems, that are continually being improved, we are rigorous in our hiring standards. It's essential to us and our clients that our care staff are compliant.

Every candidate that we screen also attends face-to-face interviews with our recruitment specialists. This means that only those with the right care experience, local knowledge and awareness are hired. Our staff are handpicked to match the services they need to provide. They have the right qualifications and experience, with many of them having achieved QCF level 2 or 3.

Your business is our business. Each candidate or employee needs to go through Disclosure Barring Services (DBS), POCA, SOVA, work history, experience and qualification checks. We also verify references and health declarations, so that we know exactly who is capable of what and to what level of competence. Ongoing training needs are regularly assessed to ensure a high standard of service:

Care 24/7 Healthcare complies with:

- The Care Standards Act 2000
- The Regulation of Care Act 2001
- Department of Health Code of Practice of NHS Employers
- All NHS National Framework Guidelines
